Resumen

Does Iraq have a 5G network?

The Iraqi cabinet has approved a licence for Vodafone Global Telecommunications to operate the country's first 5G network. The cabinet directed the ministry of communications to proceed with the project, state-run Iraq News Agency (INA) reported, citing a statement by the prime minister's media office.

Who owns Iraq's national telecommunications network?

On 26 November, Vodafone secured the license to operate Iraq's national telecommunications network, after the Council of Ministers approved its selection as the operator for the national mobile license project using 5G technology.

Is Vodafone planning a new cellular network in Iraq?

The cabinet directed the ministry of communications to proceed with the project, state-run Iraq News Agency (INA) reported, citing a statement by the prime minister's media office. Vodafone said it was discussing a role as an advisor in designing the network rather than operating it, Reuters reported. "Discussions are still ongoing.

How will a telecom project help Iraqi youth?

"The project seeks to improve telecom services, lower costs, increase state revenues, and bring modern technology. It will create jobs for Iraqi youth and enhance their network management skills," Communications Minister Hayam Al-Yasiri stated.

Will Vodafone boost Iraq's social and economic development?

Peter Dvorak, Vodafone's CEO for Partner Markets, said the initiative would boost Iraq's social and economic development, emphasizing "the company's global expertise and dedication to training young Iraqi talents."
